Developing Wisconsin's Comprehensive Wildlife Conservation Plan (CWCP) Timeline & Public Participation

Public Participation Opportunities

Webpage Updates, Archives & Info dnr.wi.gov/ org/land/er/ cwcp

- Information on the project and process distributed
- Provide list of "species of greatest conservation need" generated
- Share information on habitats
- Consult with interested publics on threats to species & habitats
- Gather comments, ideas, and concerns describe how input used
- Involve publics in developing & prioritizing conservation actions
- Incorporate comments so that they are reflected in actions and priorities
- Inform on implementation, monitoring, & plan review processes
- Gather comments, ideas, and concerns describe how input used
- Obtain feedback on draft plan
- Gather comments, ideas, and concerns; show how input is reflected in final plan
- Participate in implementation and review of plan in the future

Wisconsin's Comprehensive Wildlife Conservation Plan **Proposed Interactive Team Organization**

Guidance Team (Department Division Administrators)

Decision making group for the plan development and implementation.

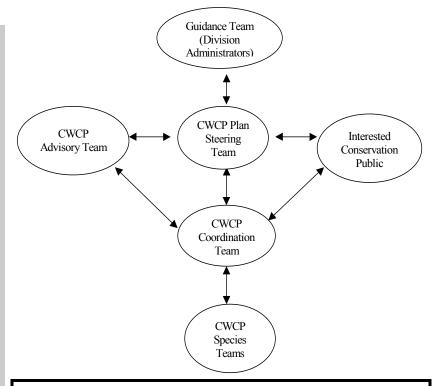

CWCP Plan Steering Team (Department Program Leaders)

Provide leadership and organizational commitment to ensure success of the plan. Encourage meaningful participation and buy-in among partners during plan development.

CWCP Advisory Team (Various Conservation Partners)

The Department looks to this team for direct advice and innovation in formulating solutions and incorporates its advice and recommendations into decisions to the maximum extent possible. They will assist in plan implementation. Groups represented are US Fish & Wildlife

Service, US Forest Service, Madison Audubon Society, Natural Resources Foundation, WI DOT, WI DNR, Friends of Milwaukee's Rivers, Gathering Waters, WI Chapter of the Wildlife Society, UW-Madison, Great Lakes Indian Fish & Wildlife Commission, WI Association of Lakes, Milwaukee Public Museum, The Ruffed Grouse Society, Trout Unlimited, The Nature Conservancy, USDA/NRCS, WE Engeries, and WI Society for Ornithology.

We Want to Know

Do you have some expertise on species and/or habitats you could share? As we develop this plan we will need help from organizations and/or individuals that can provide information and analysis on species, their habitats, and conservation strategies. We're looking for people to assist on species/habitat teams. Please contact us so we can discuss how you might become more involved and what your area of interest/knowledge is in.

tion and Citizens) Purpose will be to inform or consult with

Interested Conservation Public (Broad

Array of Partners, Interested Organiza-

them for feedback on issues, analysis, alternatives, and proposals as part of this planning process. Methods of communication may include newsletters, website and public meetings.

CWCP Coordination Team (Various Department Program Staff)

Design and manage the project; support the activities of the other teams; ensure involvement of all interested participants; assemblage of final report. Responsible for plan completion.

CWCP Species/Habitat Teams (Various Department and Non-Department Expertise)

These teams are primarily responsible for the technical expertise needed in developing the plan. They will also conduct analyses and create products to support the plan, which will be reviewed and refined by Coordination, Advisory and Steering Team members.
